Subject : Thailand-Cambodia DTA becomes effective

Mr. Prasong Poontaneat, Director-General of the Revenue Department, announced that “Double Taxation Agreement (DTA) between Thailand and Cambodia came into effect on 26th December 2017. Therefore, a taxpayer can get tax benefits from this DTA from 1st January 2018 onwards. The DTA provides benefits to taxpayers in ensuring that the same cross-border income is not subject to tax twice and encourage sound business environment between the two countries. For instance, if a Thai investor receives dividend, interest or royalty income from Cambodia, the withholding tax will be subjected to a lower rate than that under the domestic tax law.”

The DTA between Thailand and Cambodia is Thailand’s 61st DTA with foreign jurisdictions.
